TECHNICAL SUPPORT FOR developing and growing poultry and aquaculture industries in Africa will be provided by a team of United Nations Development Programme experts in the region, as the agency's new Food and Agriculture Organization (FAO) office in Nairobi gets up and running.

However, the United Nations' presence in Kenya is already strong. FAO is helping a consortium of countries, including India, with a \$10-million project to increase the productivity of dairy cattle in the country, which is one of the world's poorest.

At present, FAO's annual \$10-million budget is spread over 10 projects.

Imelda may get to keep most gems

By Gilbert S. Sison Jr.

THE PHILIPPINE JEWELRY ASSOCIATION (PJA) yesterday asked the jewelry industry and gold buyers to stand in the government's defense against the 300-gram gold buyback program imposed last Friday. It says, adding that the offer was not an attempt to "steal" the industry's gold supply but rather to "recycle" it. The PJA also said that the government's buyback program is "designed to help the industry to recover from the recession and to help it to grow again."

Imelda's jewelry collection is the most valuable in the world, according to the PJA. It is worth more than \$1 billion, and it is the most valuable in the world. The PJA also said that the government's buyback program is "designed to help the industry to recover from the recession and to help it to grow again."

It was a disappointing performance for the Republic of the Philippines (RP) bowlers at the Asian Youth Games (AYG) in Manila, Philippines. The team, consisting of several young players, failed to secure any medals in the competition. Uighur riots leave 140 dead in China

THE UIGHUR RIOTS IN THE WESTERN CHINA PROVINCE OF XINJIANG LEFT 140 DEAD AND 1,000 WOUNDED, CHINESE OFFICIALS SAID MONDAY.

The riots broke out in the city of Urumqi, the capital of Xinjiang, on July 7. The riots spread to other parts of the province, and the government declared a state of emergency.

The riots were the most serious since the 1990s, when Uighur separatists fought a bloody war against the Chinese government. The riots were triggered by a dispute over a land lease.

The Chinese government has been accused of human rights abuses in Xinjiang, including the use of force against Uighur protesters. The government has also been accused of suppressing Uighur culture and language.
